

# UVH-25EL

The UVH 25EL unmanned helicopter with increased carrying capacity, flying range and widened operational temperature range

UVH 25EL is an industrial grade helicopter with an electric motor and Li-Ion rechargeable batteries.

Take-off and landing as well as mission are carried out automatically.

Optional semi-automatic control.

Emergency operation modes.

Decreased turnaround time.

Proprietary Autopilot.

## APPLICATION:

- Video surveillance and monitoring
- Payload delivery
- Radio link range extension and retransmission
- R&D flying laboratory (meteorology, hydrology, earth monitoring, etc.)

**PERFORMANCE**

| <b>PARAMETER</b>                             | <b>DATA</b>                          |
|--|--------------------------------------|
| Cruising speed                               | 45 km/h (28 mi/h)                    |
| Maximum speed                                | 100 km/h (62 mi/h)                   |
| Max. Payload                                 | 5 kg (11 lb)                         |
| MTOW   | 25 kg (55 lb)                        |
| Max. climbing capacity                       | 3 m/s (5.8 kts)                      |
| Max. wind speed during taking off or landing | 14 m/s (27kts)                       |
| Endurance                                    | 1.5 h                                |
| Operational range                            | 67 km (41,6 mi)                      |
| Practical ceiling                            | 3.500 m (9,842 ft)                   |
| Operation temperature                        | -20°C to +40°C<br>(-4°F to + 104 °F) |

**PHYSICAL SPECIFICATIONS**

| <b>PARAMETER</b>               | <b>DATA</b>   |
|--------------------------------|---|
| Main rotor diameter            | 2.600 mm (102.3 in)   |
| Length                         | 2.670 mm (105,1 in)   |
| Height                         | 670 mm (26,3 in)  |
| Landing skids base             | 790 mm (31,1 in)  |
| Engine type                    | BLDC Electric   |
| Motor power                    | 5 kW  |
| Battery                        | Li-Ion  |
| Emergency landing              | Parachute/Autorotation  |
| Onboard power supply           | 12 V  |
| Altimeter                      | Radio   |
| TBI (inspections, maintenance) | 500 h   |
| Level surface                  | 10 x 10 m (32,8 ft)   |
| Storage                        | Heli in box: 42kg(92,6 ft)<br>Packing dimensions:<br>1.700mm x 300mm x<br>500mm<br>(66,9in x 11,8in x 19,6in) |
| Ground support equipment       | Not required  |
